PROFESSIONAL SUMMARY

Data Analyst and Data Engineer with 4+ years of experience in compliance analytics, ML data operations, and business intelligence at Amazon. Skilled in Python, SQL, PySpark, Power BI, and AWS/Azure data platforms, building ETL pipelines and dashboards that drive measurable business decisions.

CORE SKILLS

- **Languages & Tools:** Python, SQL (Redshift), PySpark, VBA, Excel (Pivot Tables, Power Query, VLOOKUP), Git, JIRA
- **BI & Visualization:** Amazon QuickSight, Power BI, Chart.js, KPI Dashboards, Funnel Analysis, Geo-Segmentation
- **Cloud & ETL:** AWS S3, Glue, Lambda, Athena, Redshift, Azure Databricks, Delta Lake, Unity Catalog
- **Core Competencies:** Compliance Auditing, SOP Development, Stakeholder Reporting, Data Quality QA, Statistics, Mentoring

PROFESSIONAL EXPERIENCE

Senior Product Compliance Data Associate

Jul 2024 - Jul 2025

Amazon

Bangalore, India

- Audited 1,000+ ASINs per cycle across 100+ seller accounts on Seller Central, cross-referencing listings against compliance SOPs across 8+ global marketplaces, maintaining a near-zero error rate.
- Developed a VBA macro to automate browser navigation and scrape policy-relevant keywords across ASIN pages, flagging non-compliant terms and cutting per-cycle audit time by several hours per associate.
- Wrote and executed SQL queries on Amazon Redshift daily to track suppression backlogs and SLA adherence; built QuickSight dashboards consumed by 3+ team leads for weekly performance reviews.

ML Data Associate

Apr 2021 - May 2023

Amazon

Delhi, India

- Annotated 300 to 500 fulfillment center pod and bin images per shift to validate product count accuracy for Amazon's ML-based inventory computer vision models, consistently meeting quality and productivity targets.
- Monitored annotation data pipelines for labeling errors, generating daily and weekly Excel-based productivity and accuracy metrics reports for senior management.
- Delivered structured UX feedback to engineering teams that measurably reduced processing times for complex classification workflows.

Technical Analyst

Oct 2016 - Apr 2017

Maintec Technologies

Noida, India

- Managed end-to-end technical support and SLA-compliant ticket resolution for corporate clients across hardware, software, and network domains.

PORTFOLIO PROJECTS

[ShopVista - Production Lakehouse Pipeline & Analytics Dashboard](#) | PySpark, Azure Databricks, Delta Lake, Power BI, SQL

- Built a medallion architecture (Bronze, Silver, Gold) ETL pipeline on Azure Databricks processing 1.9 million daily order rows, 812,705 shipment records, and 24,604 returns across a 7-country e-commerce platform.
- Engineered PySpark data quality transforms across 300,000+ customers and 50,000+ products; designed a Power BI dashboard surfacing 14.02 billion INR net revenue and an 80.9% repeat customer rate.

[Instagram Analytics Dashboard](#) | Python, pandas, SQL, Chart.js, Power BI

- Built an ETL pipeline across 668 posts and 60 campaigns from 6 brand accounts; SQL-style aggregation revealed Tier 3 city audiences had 36% higher purchase intent than Metro audiences.
